Hi David,

Thanks for writing back to Jon. I figured we were shooting for this week since you've given it to mike. Maybe even tomorrow, that would be nice.

I am going to do a draft agenda for the DOGGR pre-meeting tomorrow. I will send it out later today.

Also I will be calling in tomorrow for that produced water call with Region 8 (Tricia and the water policy advisor Ayn) and the State Board. Water board requested the call --- I went to a pre-call yesterday with Region 8 with Tricia and Chuck Tinsley who was representing Douglas and Ayn and Colleen something who is a Regional Toxicologist. I have told them we are not getting involved in crops and their uptake of chemicals from produced water being used for irrigation but Janice and John B are supposed to be on the call so I felt like I needed to accept -- you and I had not discussed, this came up last week.

Hi Jon,

I expect a letter will be going out this week. We will ensure that you get a copy.

Regards,
David

Subject: Follow Up from Sacramento Meeting

Good afternoon, David and Michele

During our last meeting in Sacramento to discuss the Arroyo Grande aquifer exemption application, you mentioned that a formal letter requesting additional information would be sent from EPA to DOGGR. To my knowledge, DOGGR has not received anything from the EPA on this issue as of yet. Having the paperwork to document the exact course of action needed to move ahead will assist all parties involved. Let me know how I can assist you with this endeavor and have a great day. I look forward to hearing from you.
